This analysis should be read in conjunction with Central Fund's financial statements prepared in accordance with Canadian GAAP included in its 2010 Annual Report and accompanying Management's Discussion and Analysis.

The change in net assets as reported in U.S. dollars from period to period is primarily a result of the changing market prices of gold and silver and the proportion of each held by the Company. Changes in the value of the U.S. dollar relative to the Canadian dollar will also have an impact on net assets when reported in Canadian dollars.

Net assets increased by \$252.1 million during the three months ended January 31, 2011 primarily as a result of a 15.8% increase in the price of silver. The price of gold fell 1.5% during this same period.

CENTRAL FUND OF CANADA LIMITED

Net income per share:		
<i>Class A shares</i>	\$ 1.06	0.09
<i>Common shares</i>	\$ 1.05	0.08

Net income (inclusive of the change in unrealized appreciation of holdings) for the three months ended January 31, 2011 was \$252.1 million compared to \$18.6 million for the comparative period in 2010. Virtually all of the net income was due to the change in the unrealized appreciation of silver. Interest income increased compared to the comparable quarter in 2010 as interest rates on interest-bearing cash deposits were higher. Certain expenses, such as administration fees which are scaled, have varied in proportion to net asset levels or, in the case of stock exchange fees, with market capitalization based on the number of Class A shares issued. Administration fees, which are calculated monthly based on net assets at each month-end, increased during the three month period ended January 31, 2011 to \$1.9 million, from \$1.3 million for the comparative period in 2010, as a direct result of the higher level of net assets under administration.

Expenses as a percentage of average month-end net assets for the three month periods ended January 31, 2011 and 2010 remained unchanged at 0.08%. For the twelve month period ended January 31, 2011, the expense ratio was 0.31% compared to 0.32% for the twelve month period ended January 31, 2010.

Central Fund of Canada Limited is a specialized investment holding company which invests primarily in long-term holdings of allocated, segregated and unencumbered gold and silver bullion and does not speculate in gold and silver prices. At January 31, 2011, the Class A shares of Central Fund were backed 98.2% by gold and silver bullion and may be purchased or sold with ease on either the NYSE Amex (Symbol: CEF) or The Toronto Stock Exchange (Symbols: CEF.A in Canadian dollars and CEF.U in U.S. dollars).
