Central Fund of Canada Limited

1ST QUARTER

INTERIM REPORT TO SHAREHOLDERS

for the three months ended January 31, 2002

Central Fund of Canada Limited

1st QUARTER REPORT

Central Fund is currently 98.5% invested in gold and silver bullion. At January 31, 2002 Central Fund's gold holdings were 129,725 fine oz. of physical bullion and 2,502 fine oz. of gold bullion certificates. Silver holdings were 6,450,252 oz. of physical bullion and 165,516 oz. of silver bullion certificates. The physical bullion is insured and held in safekeeping by a Canadian chartered bank in segregated vault storage. Central Fund continues to fulfil its mandate as "The Sound Monetary Fund".

On behalf of the Board of Directors:

J.C. Stefan Spicer, President

FINANCIAL REVIEW

Results of Operations – Change in Net Assets

The \$0.01 or 0.3% increase in net assets per Class A share expressed in U.S. dollar terms during the past three months was due primarily to the 1.3% increase in the price of gold during the period. This increase was partially offset by the small net loss during the period. The price of silver did not change. Net assets per Class A share as expressed in Canadian dollar terms increased at a higher rate by \$0.04, or 0.7% as the small increase described above was complemented by the 0.4% increase in the U.S. dollar relative to the Canadian dollar. The components of the change in net asset value per Class A share in U.S. and Canadian dollars are summarized in the adjacent table.

Results of Operations – Net Loss

The net loss for the three months ended January 31, 2002 is 22.5% higher than that of the same three month period in 2001. This increased net loss is mainly attributable to the decline in interest income during the period compared to the same period in 2001. Interest income decreased as a result of lower average cash balances in the current period combined with a significant and sustained round of interest rate reductions implemented by the Bank of Canada and the Federal Reserve during 2001. Operating expenses increased by 5.3% in the three months ended January 31, 2002 as compared to the same period in 2001.

The Company did not sell any of its gold and silver bullion holdings during either of these periods.

Liquidity and Capital Resources

Central Fund's dollar liquidity objective is to hold cash reserves primarily for the payment of operating expenses, taxes and Class A share dividends. Should Central Fund not have sufficient cash to meet its needs, a nominal portion of Central Fund's bullion holdings may be sold to fund tax and dividend payments, provide working capital, and pay for redemptions of Class A shares (if any). Sales of such holdings could result in Central Fund realizing capital gains or in the current bullion market, losses. Central Fund qualifies as a "Mutual Fund Corporation" for Canadian income tax purposes. Any Canadian tax payable by Central Fund to the extent it relates to taxable capital gains, is fully refundable when the realized gains are distributed by way of special capital gains dividends or deemed to be distributed to shareholders through redemptions.

For the three months ended January 31, 2002, Central Fund's cash reserves decreased by \$358,216 as amounts were used to pay operating expenses, taxes and the Class A share dividend. Management monitors Central Fund's cash position with an emphasis on maintaining its mandate to hold maximum amounts of gold and silver bullion.

3. The authorized share capital consists of 100,000,000 Class A non-voting shares without nominal or par value and 50,000 Common shares without nominal or par value.

Since October 1989, holders of the Company's Class A shares have had the option to require the Company to redeem their Class A shares on the last day of each fiscal quarter of the Company (each a "Retraction Date") for 80% of the Company's net asset value per Class A share on the Retraction Date (as calculated in accordance with note 1 (c) (ii)). Class A shareholders who wish to exercise this retraction right must submit their written redemption request at least 90 days prior to the desired Retraction Date. The Articles of the Company provide for the suspension of redemptions during specified unusual circumstances such as suspensions of normal trading on certain stock exchanges or the London bullion market or to comply with applicable laws or regulations.

The holders of the Class A shares are entitled to receive a preferential non-cumulative annual dividend of U.S. \$.01 per share. Any further dividends declared are to be paid rateably on the Class A shares and Common shares then outstanding, without preference or distinction. The Company has adopted a policy that any dividends declared shall be to shareholders of record at the close of business each October 31, with payment of such dividends being made during November of the same year.

Notes:

4. In 1985 the shareholders authorized the use of contributed surplus to eliminate any deficit that may arise from losses and on the payment of the Class A shares' stated dividend. Accordingly, \$184,443 (2001, \$150,605) has been transferred from contributed surplus on January 31, 2002 and 2001 representing the net loss for the three months then ended. This change does not affect the net asset value of the Company.

5. Effective November 1, 2000, the Company adopted the new recommendations of The Canadian Institute of Chartered Accountants with respect to accounting for income taxes retroactively, without restatement. There was no effect on the statement of net assets as at November 1, 2000, as a result of adopting the liability method of tax allocation.

Under the liability method of tax allocation, future tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities, and

measured using the substantially enacted tax rates and laws that will be in effect when the differences are expected to reverse.

Income taxes pertain to the Canadian Federal large corporations tax, which is intended to be a minimum corporate tax and in the case of Central, operates similarly to a capital tax.

6. Under Canadian generally accepted accounting principles, the Company records the unrealized appreciation (depreciation) of its investments as a component of shareholders' equity. Under accounting principles generally accepted for investment companies in the United States, these amounts are reflected in the statements of loss. Net income (loss) for the three months ended January 31, 2002 would be \$ 286,259; (2001, \$183,435) under United States principles. The net assets of the Company are identical under both Canadian and United States generally accepted accounting principles.
