

Central Fund of Canada Limited

1st Quarter

INTERIM REPORT TO SHAREHOLDERS

for the three months ended January 31, 2008

The Role of Central Fund

**To serve investors as "The Sound Monetary Fund".
To hold gold and silver bullion on a secure basis for the
convenience of investors in the shares of Central Fund.**

Investment Policies & Restrictions The governing articles of Central Fund require that at least 75% of Central Fund's non-cash assets be invested in gold and silver bullion. This cannot be changed without shareholder approval.

The stated investment policy of the Board of Directors requires Central Fund to maintain a minimum of 90% of its net assets in gold and silver bullion of which at least 85% must be in physical form. On January 31, 2008, 98.4% of Central Fund's net assets were invested in gold and silver bullion. Of this bullion, 99.3% was in physical form and 0.7% was in certificate form.

Central Fund's physical gold and silver bullion holdings may not be loaned, subjected to options or otherwise encumbered in any way.

Safeguards Central Fund's bullion is stored on an allocated and fully segregated basis in the underground vaults of the Canadian Imperial Bank of Commerce (the "Bank"), one of the major Canadian banks which insures its safekeeping.

The Bank may only release any portion of Central Fund's physical bullion holdings upon receipt of an authorizing resolution of Central Fund's Board of Directors.

Additional insurance is carried by Central Fund on the physical gold and silver bullion holdings against destruction, disappearance or wrongful abstraction.

Bullion holdings and bank vault security are inspected twice annually by directors and/or officers of Central Fund. On every occasion, inspections are required to be performed in the presence of both Central Fund's external auditors and bank personnel.

Central Fund is subject to the extensive regulations and reporting requirements of the United States Securities and Exchange Commission, two stock exchanges and various Canadian provincial securities regulatory authorities.

Conveniences Central Fund's Class A shares are listed on the American Stock Exchange (CEF) and on the Toronto Stock Exchange (CEF.A in Canadian dollars and CEF.U in U.S. dollars). Making a gold and silver bullion investment through Central Fund is as easy as calling one's stockbroker or investment dealer.

The stock exchange listings provide readily quoted, liquid markets for the Class A shares of Central Fund. The bid/ask spread is considerably less than the buying and selling prices of outright bullion purchases, especially for small transactions.

Unlike most other forms of bullion investment, there are no ownership costs paid directly by the investor. All expenses of handling, storage and insurance of bullion are paid by Central Fund. As well, there are no bullion assay charges to the shareholder upon the sale, redemption or liquidation of the Class A shares of Central Fund.

First Quarter Report

Central Fund is currently 98.4% invested in gold and silver bullion. At January 31, 2008 Central Fund's gold holdings were 799,484 fine ounces of physical bullion and 5,685 fine ounces of gold bullion certificates for a total of 805,169 fine ounces. Silver holdings were 40,007,184 ounces of physical bullion and 245,572 ounces of silver bullion certificates for a total of 40,252,756 ounces. Central Fund continues to fulfill its mandate as "The Sound Monetary Fund".

The following discussion is based on the financial statements of Central Fund of Canada Limited ("Central Fund" or the "Company") which are prepared in accordance with accounting principles generally accepted in Canada (Canadian GAAP). These principles are substantially the same as United States' generally accepted accounting principles.

This analysis should be read in conjunction with Central Fund's financial statements prepared in accordance with Canadian GAAP included in its 2007 Annual Report and the accompanying MD&A.

Throughout this discussion, all currency amounts are in United States dollars.

Certain statements in this report may constitute forward-looking information within the meaning of securities laws. Therefore, future events and results may vary significantly from what we currently foresee.

Disclosure Controls and Procedures

It is party to an Administrative and Consulting Agreement with The Central Group Alberta Ltd., which is related to the Company through four of its officers and directors. For such services, the Company pays an administrative and consulting fee, payable monthly (see note 6 to the financial statements).

Results of Operations – Change in Net Assets

Net assets increased by \$204.1 million in the first quarter essentially due to the unrealized appreciation of holdings during the quarter.

Financial Results – Net Income

Central Fund's earned income objective is secondary to its objective of holding almost all of its net assets in gold and silver bullion. Generally, Central Fund only seeks to maintain adequate cash reserves to enable it to pay expenses and Class A share dividends. Because gold and silver bullion are not loaned to generate income, Central Fund's realized income is a miniscule percentage of its net assets. However, the Canadian Institute of Chartered Accountants ("CICA") Accounting Guideline 18 requires Central Fund to record unrealized appreciation (depreciation) of holdings in income.

Net income (inclusive of unrealized appreciation of holdings) for the three months ended January 31, 2008 was \$204.1 million compared to \$73.2 million for the same period in 2007. Virtually all of the net income for the three month period was due to unrealized appreciation of holdings. Certain expenses, such as administration fees which are scaled, have varied in proportion to net asset levels or, in the case of stock exchange fees, with market capitalization based on the number of Class A shares issued. Safekeeping fees and bullion insurance costs increased, reflecting the higher prices of gold and silver bullion. Administration fees increased to \$760,954 from \$612,328 for the three months based on the increased assets under administration.

Expenses as a percentage of average month-end net assets for the three-month period ended January 31, 2008 were 0.10%, compared to 0.11% for the same three-month period in 2007. For the twelve months ended January 31, 2008, the expense ratio was 0.42% compared to 0.45% for the prior twelve-month period.

Liquidity and Capital Resources

All of Central Fund's assets are liquid. The Company's objective is to hold cash reserves that generate some income primarily to be applied to pay expenses and Class A share dividends. The ability of Central Fund to have sufficient cash for expenses and dividend payments, and to meet demands for redemption (if any), is primarily dependent upon its ability to realize cash flow from its cash equivalents. Should Central Fund not have sufficient cash to meet its needs, portions of Central Fund's bullion holdings may be sold to fund dividend payments, provide working capital and pay for redemptions (if any) of Class A shares.

For the three months ended January 31, 2008, Central Fund's cash reserves decreased by \$2,208,287 to \$25,322,586. This decrease was a result of amounts used to pay expenses and the Class A share dividend. The Administrator and senior officers monitor Central Fund's cash position with an emphasis on maintaining its mandate to hold maximum amounts of gold and silver bullion.

Forward-looking Observations

Changes in the market prices of gold and silver impact the net asset values of Central Fund and its shares. Assuming as a constant exchange rate the rate which existed on January 31, 2008 of Cdn. \$1.0022 for each U.S. dollar together with the holdings of gold and silver bullion which existed on that date, a 10% change in the price of gold would increase or decrease the net asset value per share by approximately \$0.59 per share or Cdn. \$0.60 per share. A 10% change in the price of silver would increase or decrease the net asset value per share by approximately \$0.54 per share or Cdn. \$0.54 per share. If both gold and silver prices were to change by 10% simultaneously in the same direction, the net asset value per share would increase or decrease by approximately \$1.13 per share or Cdn. \$1.14 per share.

Additional Information

This MD&A is dated February 25, 2008. Additional information relating to the Company, including its Annual Information Form and 2007 Annual Report, is available on the SEDAR website at www.sedar.com.
