

Central Fund of Canada Limited

1st Quarter

INTERIM REPORT TO SHAREHOLDERS

for the three months ended January 31, 2015

The Role of Central Fund

**To serve investors as "The Sound Monetary Fund".
To hold gold and silver bullion on a secure basis for the
convenience of investors in the shares of Central Fund.**

Investment Policies & Restrictions The investment policy set by the Board of Directors requires Central Fund of Canada Limited ("Central Fund" or the "Company") to maintain a minimum of 90% of its net assets in gold and silver bullion of which at least 85% must be in physical form. On January 31, 2015, 99.6% of Central Fund's net assets were held in gold and silver bullion. Of this bullion, 99.5% was in physical form and 0.5% was in certificate form.

Central Fund's physical gold and silver bullion holdings may not be loaned, subjected to options or otherwise encumbered in any way.

Safeguards Central Fund's bullion is stored on an allocated and fully segregated basis in underground vaults located in Canada which are controlled by the Canadian Imperial Bank of Commerce (the "Bank"), one of the major Canadian banks.

The Bank may only release any portion of Central Fund's physical bullion holdings upon receipt of an authorizing resolution of Central Fund's Board of Directors.

Bullion holdings and Bank vault security are inspected twice annually by Directors and/or Officers of Central Fund. On every occasion, inspections are required to be performed in the presence of both Central Fund's external auditors and Bank personnel.

Central Fund is subject to the extensive regulations and reporting requirements of the United States Securities and Exchange Commission, two stock exchanges and various Canadian provincial securities regulatory authorities.

Conveniences Central Fund's Class A shares are listed on the NYSE MKT (CEF) and on the Toronto Stock Exchange (CEF.A in Canadian dollars and CEF.U in U.S. dollars). Making a gold and silver bullion investment through Central Fund is as easy as calling one's stockbroker or investment dealer.

The stock exchange listings provide liquid markets for the Class A shares of Central Fund. The bid/ask spread is usually considerably less than the buying and selling prices of outright bullion purchases, especially for small transactions.

Unlike most other forms of gold and silver bullion investment, there are no ownership costs such as handling, storage and insurance paid directly by the investor. As well, there are no bullion assay charges to a shareholder upon the sale or redemption of Class A shares of Central Fund.

First Quarter Report

Central Fund currently holds 99.6% of its net assets in gold and silver bullion. At January 31, 2015, Central Fund's gold holdings consisted of 1,686,218 fine ounces of physical bullion and 8,427 fine ounces of gold bullion certificates for a total of 1,694,645 fine ounces. Silver holdings consisted of 76,584,499 ounces of physical bullion and 379,603 ounces of silver bullion certificates for a total of 76,964,102 ounces. Central Fund continues to fulfill its mandate as "The Sound Monetary Fund".

On behalf of the Board of Directors:

J.C. Stefan Spicer, President & CEO

February 23, 2015

Management's Discussion and Analysis ("MD&A")

These interim financial statements of Central Fund of Canada Limited ("Central Fund" or the "Company") have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting". These are the Company's first interim financial statements under International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") for part of the period covered by the first IFRS annual financial statements, and IFRS 1 "First-time Adoption of IFRS" has been applied. The interim financial statements may not include all of the information required for full annual financial statements. Notes to the financial statements on pages 8 to 16 should be referred to as supplementary information to this discussion and analysis.

The transition to IFRS has had no impact on the financial position or financial performance of the Company and has affected only the presentation of the Company's financial statements. The financial statements are presented in U.S. dollars and all values are rounded to the nearest dollar unless otherwise indicated.

Certain statements in this report may constitute forward-looking information within the meaning of securities laws. Forward-looking information may relate to the Company's future outlook and anticipated events and may relate to matters that are not historical facts. In particular, statements regarding the Company's objectives and strategies are forward-looking statements. These statements are based on certain factors and assumptions which are considered reasonable as of the current date but may prove to be incorrect. Forward-looking information is also subject to certain factors, including risks and uncertainties (described in "Risk Factors" in the Company's 2014 annual MD&A), that could cause future events and results to differ materially from what the Company currently foresees.

Disclosure Controls and Procedures

The Senior Executive Officers have established and implemented disclosure controls and procedures in order to provide reasonable assurance that material information relating to the Company is disclosed on a timely basis. They believe these disclosure controls and procedures have been effective during the three months ended January 31, 2015.

Outstanding Shares

There were 254,432,713 Class A retractable shares and 40,000 Common shares issued and outstanding at January 31, 2015.

Financial Results – Changes in Net Assets

Net assets increased by \$215.4 million or 6.7% during the three months ended January 31, 2015 primarily as a result of a 8.2% increase in the price of gold and a 4.4% increase in the price of silver during the period.

The following table summarizes selected quarterly financial information (amounts in millions except where stated on a per share basis):

	<i>Quarter ended (U.S.\$)</i>			
	<i>Jan. 31,</i>	<i>Oct. 31,</i>	<i>July 31,</i>	<i>Apr. 30,</i>

<i>Net income (loss) inclusive of the change in unrealized appreciation of holdings</i>	\$(349.1)	\$186.8	\$(609.6)	\$(921.1)
<i>Net income (loss) per Class A share inclusive of the change in unrealized appreciation of holdings</i>	\$(1.37)	\$0.73	\$(2.40)	\$(3.62)
<i>Total net assets</i>	\$3,635.5	\$3,984.6	\$3,800.3	\$4,409.9

Financial Results – Net Income

Central Fund's earned income objective is secondary to its purpose of holding almost all of its net assets in gold and silver bullion. Generally, Central Fund seeks only to maintain adequate cash reserves to enable it to pay expenses and Class A share dividends. Because gold and silver bullion are not loaned to generate income, Central Fund's realized income is a nominal percentage of its net assets.

Net income, inclusive of the change in unrealized appreciation of holdings, for the three months ended January 31, 2015 was \$215.4 million compared to a net loss, inclusive of the change in unrealized appreciation of holdings, of \$349.1 million for the comparative period in 2014. Virtually all of the net income (loss) for the three-month period ended January 31, 2015 was a result of the change in the unrealized appreciation of holdings during the period which was driven by the higher prices of gold and silver bullion during the period. Certain expenses, such as administration fees and safekeeping fees, vary relative to net asset levels. Administration fees, which are scaled and are calculated monthly based on the total net assets at each month-end, decreased by \$119,446 during the three-month period ended January 31, 2015 as compared to the same period in 2014. The decrease in administration fees was a direct result of the lower levels of average net assets under administration during the three-month period.

Expenses as a percentage of average month-end net assets (the "expense ratio") for the three-month period ended January 31, 2015 remained unchanged from the comparative period in 2014 at 0.08%. For the twelve-month period ended January 31, 2015, the expense ratio remained unchanged at 0.32% from the comparative twelve-month period ended January 31, 2014.

Liquidity and Capital Resources

All of Central Fund's assets are liquid. The Company's liquidity objective is to hold cash and cash equivalents in a safe and conservative manner to generate income primarily to be applied towards expenses and Class A share dividends. The ability of Central Fund to have sufficient cash for expenses and dividend payments, and to meet demands for redemptions (if any), is primarily dependent upon its ability to realize cash flow from its cash equivalents. Should Central Fund not have sufficient cash to meet its needs, portions of Central Fund's bullion holdings may be sold to fund dividend payments, provide working capital and pay for redemptions (if any) of Class A shares.

For the three months ended January 31, 2015, Central Fund's cash and cash equivalents decreased by \$4.3 million to \$18.7 million. This decrease was a result of the amounts used to pay expenses and the year-end Class A share dividend. The Administrator and Senior Executive Officers monitor Central Fund's cash position with an emphasis on maintaining its mandate to hold maximum amounts of gold and silver bullion at all times.

Administrator and Other Related Party Information

Please refer to Note 9 on page 14 of this interim report.

Additional Information

This MD&A is dated February 23, 2015. Additional information relating to the Company, including its Annual Information Form and 2014 Annual Report, is available on the SEDAR website at www.sedar.com and Central Fund's website at www.centralfund.com.

Notes to Financial Statements

For the three months ended January 31, 2015
(amounts expressed in U.S. dollars unless otherwise stated)

1. Organization of the Company

Central Fund of Canada Limited (“Central Fund” or the “Company”) is a low-cost, convenient facility for the investment ownership of gold and silver bullion.

The Company is authorized to issue an unlimited number of Class A non-voting shares. All issued shares are listed and traded on the New York Stock Exchange MKT (symbol CEF) and the Toronto Stock Exchange (symbol CEF.A in Canadian dollars and CEF.U in U.S. dollars).

The purpose of Central Fund is to acquire, hold and secure gold and silver bullion on behalf of its shareholders. All gold and silver bullion bars are “Good Delivery Bars” as defined by the London Bullion Market Association (“LBMA”), and are stored on an allocated and segregated basis in the highest rated (Level 3) underground treasury vaults of its Custodian, the Canadian Imperial Bank of Commerce, one of the largest banks in Canada.

The Company’s registered office is located at 1323 – 15th Avenue S.W. Suite 805, Calgary, Alberta, Canada, T3C 0X8.

The Central Group Alberta Ltd. (the “Administrator”) acts as the administrator of the Company pursuant to an Administrative Services Agreement with the Company.

The financial statements of the Company as at and for the three months ended January 31, 2015 were authorized for issue by the Directors of the Company on February 23, 2015.

2. Summary of significant accounting policies:

Basis of Preparation

These interim financial statements have been prepared in accordance with International Accounting Standards (“IAS”) 34 “Interim Financial Reporting”. These are the Company’s first interim financial statements under International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) for part of the period covered by the first IFRS annual financial statements, and IFRS 1 “First-time Adoption of IFRS” has been applied. The interim financial statements may not include all of the information required for full annual financial statements.

The transition to IFRS has had no impact on the financial position or financial performance of the Company and has affected only the presentation of the Company’s financial statements. The presentation of a cash flow statement is new under IFRS as the Company was not required to prepare this statement prior to the implementation of IFRS. Reconciliations of equity and comprehensive income (loss) have not been prepared as there are no reconciling adjustments that resulted from the implementation of IFRS.

These financial statements have been prepared on a historical cost basis, except for gold and silver bullion, financial assets and financial liabilities held at fair value through profit or loss, which have been measured at fair value. The financial statements are presented in U.S. dollars and all values are rounded to the nearest dollar unless otherwise indicated.

(a) Gold and silver holdings:

Gold and silver bullion, and gold and silver certificates are measured at fair value by reference to the final daily London Bullion Market Association fixing rates, with realized gains and losses and unrealized appreciation or depreciation of holdings recorded in income based on the IAS 40 Investment Property fair value model, as IAS 40 is the most relevant standard to apply. Investment transactions are accounted for on the trade date. Realized gains and losses and unrealized appreciation and depreciation of holdings are calculated on the average cost basis.

(b) Cash and cash equivalents:

Cash and cash equivalents consist of deposits with the Company's banker, which are not subject to restrictions.

(c) Other receivables and prepayments and accrued liabilities:

- i) Other receivables and prepayments include all financial assets other than cash and cash equivalents and gold and silver bullion. Prepaid expenses and accrued interest receivable would be included in this category.
- ii) Accrued liabilities include all financial liabilities. Administration fees payable, safekeeping fees payable and other accounts payable would be included in this category.

(d) Share capital:

The Company has Class A non-voting shares which are retractable as well as common shares which are not retractable. Due to the discount at which a holder is permitted to retract the shares, as well as the limitations on the circumstances in which retraction is permissible, the Company has determined that the retraction feature should not be included in the assessment of equity classification under IAS 32 Financial Instruments – Presentation. Accordingly, the Company has classified both the Class A non-voting shares and the common shares as equity in these financial statements.

(e) Fees and other expenses:

Fees and other expenses are recognized on an accrual basis.

(f) Income taxes:

Central Fund is taxed as a "Mutual Fund Corporation" for income tax purposes. The Directors intend to distribute all net realized capital gains and all taxable income (net of any loss carryforwards available) directly earned by Central Fund

to its Shareholders and deduct such distributions for income tax purposes. Accordingly, there is no provision for income taxes.

(g) Net loss from administrative activities:

The Company exists for the purpose of holding gold and silver bullion, on an allocated and segregated basis on behalf of its shareholders. Gold and silver holdings are intended to be permanent assets of the Company and the unrealized appreciation of the gold and silver holdings do not represent distributable earnings. There is no intention, currently, to sell any of the Company's gold and silver holdings unless it becomes necessary to generate cash to meet ongoing expenses. The Company currently, does not loan, lease or otherwise utilize the gold and silver bullion holdings to generate income, and consequently, the Company expects to incur a net loss from its administration activities.

(h) Calculations per share:

The calculation of total equity (or the net asset value) per share is based on the number of shares outstanding at the end of the reporting period. Central Fund has no dilutive instruments.

(i) Functional and presentation currency:

The Company's functional and presentation currency is the U.S. dollar. The Company's performance is evaluated and its liquidity is managed in U.S. dollars. Therefore, the U.S. dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions of the Company.

3. Significant accounting judgments, estimates and assumptions:

The preparation of the Company's financial statements required the Senior Officers to make judgments, estimates and assumptions that affect the amounts recognized in the financial statements. Uncertainty about these assumptions and estimates could result in outcomes that may require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments

In the process of applying the Company's accounting policies, Senior Executive Officers have made the following judgments, which have the most significant effect on the amounts in the financial statements:

Going concern

The Company's Senior Executive Officers have made an assessment of the Company's ability to continue as a going concern and are satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, the Senior Executive Officers are not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis.

Estimates and Assumptions

Estimation uncertainties in accounting assumptions at the recording date that could cause material adjustment to carrying amounts of assets and liabilities within the next financial year are discussed below. The Company based its assumptions and estimates on information available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

For tax purposes, the Company's policy is to treat any gains (or losses) from the disposition of gold and silver bullion as capital gains, rather than income (or loss), as the Company is and intends to continue to be a long-term passive holder of gold and silver bullion, and generally would only dispose of a portion of its holdings in gold and silver bullion for the purposes of meeting redemptions (if any) and to pay expenses. The Canada Revenue Agency has, however, expressed its opinion that gains (or losses) of mutual fund corporations resulting from transactions in commodities should generally be treated for tax purposes as ordinary income rather than as capital gains, although the treatment in each particular case remains a question of fact to be determined having regard to all the circumstances.

The Company has also applied judgment in concluding that the retraction feature in the Class A non-voting shares should not be included in the assessment referred to in note 2(d).

4. Segment information:

For administrative purposes, the Company is organized into one main segment, being the passive, long-term holding of gold and silver bullion. It is not an active operating entity, and does not exist primarily to earn income. All of the Company's activities are interrelated, and each activity is dependent on the others. Accordingly, all significant administrative decisions are based upon an analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole. The Company's income (or loss) is almost entirely made up of the changes in the value of its gold and silver holdings.

5. Gold and silver bullion:

Details of gold and silver bullion holdings are as follows:

		Jan. 31, 2015	Oct. 31, 2014	Nov. 1, 2013
Gold bullion:				
<i>Fine ounces</i>	- 400 oz. bars	1,673,329	1,673,329	1,673,329
	- 100 oz. bars	12,889	12,889	12,889
	- bank certificates	8,427	8,427	8,427

	- bank certificates	379,603	379,603	255,551
<i>Total ounces</i>		<u>76,964,102</u>	<u>76,964,102</u>	<u>76,964,102</u>
<i>Average Cost</i>	- per ounce	\$12.53	\$12.53	\$12.53
<i>Cost</i>		<u>\$964,091,381</u>	<u>\$964,091,381</u>	<u>\$964,091,381</u>
<i>Market</i>	- per ounce	\$16.92	\$16.20	\$22.20
<i>Market value</i>		<u>\$1,302,232,625</u>	<u>\$1,246,818,470</u>	<u>\$1,708,603,089</u>

6. Cash and cash equivalents:

As at January 31, 2015 the Company held one Canadian dollar flexible GIC deposit with a Schedule 1 Canadian bank in the amount of \$78,640 (Cdn. \$100,000) bearing interest at a rate of 1.15% per annum with a maturity date of February 13, 2015. As at January 31, 2015, cash deposits of \$18,615,848 were held in a Canadian bank at a variable interest rate of 0.25% per annum.

As at October 31, 2014, the Company held one Canadian dollar flexible GIC deposit with a Schedule 1 Canadian bank in the amount of \$88,690 (Cdn. \$100,000) bearing interest at a rate of 1.15% per annum with a maturity date of February 13, 2015. As at October 31, 2014, cash deposits of \$22,936,232 were held in a Canadian bank at a variable interest rate of 0.25% per annum.

As at November 1, 2013 the Company held one Canadian dollar flexible GIC deposit with a Schedule 1 Canadian bank in the amount of \$95,890 (Cdn. \$100,000) bearing interest at a rate of 1.20% per annum with a maturity date of January 29, 2014. As at November 1, 2013, cash deposits of \$36,379,333 were held in a Canadian bank at a variable interest rate of 0.25% per annum.

7. Fair value of financial instruments:

IFRS 13, Fair Value Measurement (“IFRS 13”) establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS. IFRS defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (ie. an exit price). The application of IFRS 13 has not materially impacted the fair value measurement of the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 inputs are unobservable inputs for the asset or liability

Gold and silver bullion are measured at fair value on a recurring basis. The fair value measurement of gold and silver falls within Level 1 of the hierarchy, and is based on published price quotations.

As at January 31, 2015, October 31, 2014 and November 1, 2013, due to the short-term nature of financial assets and financial liabilities recorded at cost, it is assumed that the carrying amount of those instruments approximates their fair value.

8. Capital stock:

The authorized share capital consists of an unlimited number of Class A non-voting shares without nominal or par value and 50,000 Common shares without nominal or par value. There were 254,432,713 Class A shares, which are retractable, and 40,000 Common shares issued and outstanding at January 31, 2015, October 31, 2014 and November 1, 2013. The Class A shares are entitled to U.S. \$3.00 per share on liquidation, before any remaining net assets are attributed equally to each Class A share and Common share then outstanding.

Since October 1989, holders of the Company’s Class A shares have had the option to require the Company to redeem their Class A shares on the last day of each fiscal quarter of the Company (each a “Retraction Date”) for 80% of the Company’s net asset value per Class A share on the Retraction Date. Class A shareholders who wish to exercise this retraction right must submit their written redemption request at least 90 days prior to the desired Retraction Date. Since adoption of this redemption feature, no shareholders have submitted redemption requests.

The stated capital and recorded capital of the Company as at January 31, 2015, October 31, 2014 and November 1, 2013 are as follows:

	Jan. 31, 2015	Oct. 31, 2014	Nov. 1, 2013
Stated capital			
Class A shares: 254,432,713	\$2,434,715,140	\$2,434,715,140	\$2,434,715,140
Share issue costs	(14,944,462)	(14,944,462)	(14,944,462)
Recorded capital			
Class A shares: 254,432,713	2,419,770,678	2,419,770,678	2,419,770,678
40,000 Common shares	19,458	19,458	19,458
Capital stock	\$2,419,790,136	\$2,419,790,136	\$2,419,790,136
Weighted average Class A and Common shares outstanding	254,472,713	254,472,713	254,472,713

9. Related party transactions and fees:

Central Fund has no employees. It is party to an Administrative and Consulting Agreement with The Central Group Alberta Ltd., which is related to the Company through four of its officers and directors. The Central Group Alberta Ltd., which acts as Administrator, has operating offices with employees, advisors and consultants who provide administrative and consulting services to the Company. For such services, the Company pays an administrative and consulting fee, payable monthly, until at least October 31, 2015, at an annual rate of: 0.30% on the first \$400 million of total net assets; 0.20% on the next \$600 million of total net assets; and 0.15% on total net assets exceeding one billion dollars.

Included in accrued liabilities at January 31, 2015, is \$531,990 (October 31, 2014: \$503,719, November 1, 2013: \$601,725) which relates to that month’s administration fee payable to the Administrator.

For the three months ended January 31, 2015, the Company incurred fees totaling \$14,686 (2014: \$14,095) to legal firms of which one of the Company’s officers (and director) is a partner and one of the Company’s officers is the principal, and \$1,546,350 (2014: \$1,665,796) to the Administrator. The Board of Directors is of the opinion that these services were undertaken under similar terms and conditions as services with unrelated parties.

10. Financial highlights:

	Three months ended January 31	
	2015	2014
<i>Class A per share performance:</i>		
Net asset value per share at beginning of period	\$12.72	\$15.66
Increase (decrease):		
Net loss before the change in unrealized appreciation of holdings	(0.01)	(0.01)
Change in unrealized appreciation of holdings - gold	0.64	(0.49)
- silver	0.22	(0.87)
Total increase (decrease) ⁽¹⁾	0.85	(1.37)
Net asset value per share at end of period	\$13.57	\$14.29
Total return for period	6.7%	(8.7)%
<i>Percentages and supplemental data:</i>		
Ratio as a percentage of average net assets:		
Expenses ⁽²⁾	0.08%	0.08%
Net loss before the change in unrealized appreciation of holdings ⁽²⁾	0.08%	0.08%

The increase (decrease) per share is based on the weighted average number of shares outstanding during the period. The net asset values per share are based on the actual number of shares outstanding at the end of the relevant reporting period.

⁽¹⁾ This table is not meant to be a reconciliation of beginning to end of period net asset value per share.

⁽²⁾ Ratios not annualized.

11. Management of financial risks:

The Company has risk management policies and procedures in place to identify risks related to financial instruments and physical assets. The objectives of these policies and procedures are to identify and mitigate risk. The Company's compliance with these policies and procedures is monitored by the Senior Executive Officers, the Audit Committee and the Board of Directors of the Company. Market fluctuations are unpredictable and outside the control of the Company. New risk factors may emerge from time to time and it is not possible for the Company to predict all such risk factors.

Price risk

Price risk is the risk that the price of a security or physical asset may decline. It is possible to calculate the impact that changes in the market prices of gold and silver bullion will have on the Company's net asset value per Class A share both in U.S. dollars and Cdn. dollars. Assuming as a constant exchange rate the rate which existed on January 31, 2015 of Cdn. \$1.2717 for each U.S. dollar together with the holdings of gold and silver bullion which existed on that date, a 10% change in the price of gold would increase or decrease the net asset value per Class A share by approximately U.S. \$0.84 per share or Cdn. \$1.07 per share. A 10% change in the price of silver would increase or decrease the net asset value per Class A share by approximately U.S. \$0.51 per share or Cdn. \$0.65 per share. If both gold and silver prices were to change by 10% simultaneously in the same direction, the net asset value per Class A share would increase or decrease by approximately U.S. \$1.35 per share or Cdn. \$1.72 per share.

Currency risk

Currency risk is the risk that the value of an asset or liability will fluctuate due to changes in foreign currency exchange rates.

When expressed in U.S. dollars Central Fund's net asset value per Class A share is largely unaffected by changes in the U.S./Cdn. dollar exchange rate due to the fact that nearly all of Central Fund's net assets are priced in U.S. dollars. For this same reason, an increase or decrease in the value of the U.S. dollar relative to the Cdn. dollar would change the net asset value per Class A share as expressed in Cdn. dollars in the same direction by approximately the same percentage change in the value of the U.S. dollar.

Due to the limited value of transactions initiated in Cdn. dollars throughout the period, a strengthening or weakening of the Cdn. dollar relative to the U.S. dollar applied to balances outstanding at January 31, 2015 would not have had any material impact on the net income for the three months ended, assuming that all other variables, in particular interest rates, remained constant.

Credit risk

Credit risk on financial instruments is the risk of loss occurring as a result of the default of an issuer on its obligation to Central Fund. Credit risk is monitored on an ongoing basis and is managed by the Company dealing only with issuers that are believed to be creditworthy.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to generate adequate cash resources to fulfill its payment obligations. The Administrator regards all of Central Fund's assets as liquid. Central Fund traditionally has maintained sufficient cash reserves to enable it to pay expenses and dividends on its Class A shares.

Furthermore, 99.6% of its net assets are in the form of gold and silver bullion which are readily marketable.

12. Capital stewardship:

The capital of the Company is represented by the issued and outstanding Class A and Common shares and the retained earnings, which comprise the net asset value attributable to participating shareholders. The Board of Directors direct the Administrator to administer the capital of the Company in accordance with the Company's stated objectives and restrictions, as stipulated in the Articles of Incorporation as amended, while maintaining sufficient cash to pay the expenses of maintaining the Company and to meet demands for redemption (if any). The Company does not have any externally imposed capital requirements.

13. Personnel:

The Company did not employ any personnel during the period, as its affairs were administered by the personnel of the Administrator and/or the Directors, as applicable.

14. Events after the reporting period:

There were no material events after the reporting period.
